# VIRTUAL LOBBY

## What is a Virtual Lobby?

In the Virtual Lobby, you'll be able to network with attendees virtually during the event by simply tapping on the available attendees, checking out their profile, and then requesting a text chat

You can also visit existing video chat rooms or create your own chat room

Features were designed to facilitate networking and 1:1 socialization in a time when events and meetups have been limited to digital-only connection

**Lobby Group Chatroom**

**Face-2-Face Connect**

Chat with other attendees who are also here in the lobby.
